

This long-term plan has been devised using a two-year cycle, with revision and consolidation opportunities built in to Year B to take into account the skills of the new Y3 intake. All units include revision of prior learning to ensure the knowledge of language is constantly used and practised and builds on what children learn during their time in the EYFS and KS1. Children should see the written forms of new words/phrases and should have a go at writing especially in UKS2. This scheme of work is based on La Jolie Ronde programme but includes reference to the ELL resource: Early Start French and the A&C Black resource: Singing French. During the summer term there is an opportunity to consolidate learning through enrichment activities using a project-based approach.

### Year 3 & 4 Units

Year	Autumn 1 Confident Communicators	Autumn 2 Being Creative	Spring 1 Lifelong Readers	Spring 2 Being Curious	Summer 1 Embracing the wider world	Summer 2 Being Healthy
